

Research grant and scholarship application forms for the three Quebec funding organizations are available on their respective Web sites at the following addresses: <http://www.frsq.gouv.qc.ca>, <http://www.fqrnt.gouv.qc.ca> and <http://www.fqrsq.gouv.qc.ca>.

These three Quebec funding organizations assign a Personal Identification Number (PIN) to each researcher they keep on file. This code provides access to the information system and facilitates communication between the organizations and their clientele, while ensuring compliance with information and protection of privacy legislation.

The information requested on the first four pages of this form will not be released to evaluation committee members or external examiners. Granting agencies require this information for administrative and statistical purposes. The other pages are released to evaluation committee members and external examiners.

Only scientists from FRSQ research centres are asked to answer the questions preceded by an asterisk (*).

Researchers wishing to be included in the Quebec's Researchers Directory are required to provide the following information in French and/or English: keywords, research interests, department and specialty.

All information received is handled in accordance with access to public information and protection of privacy legislation.

NEW RESEARCH CLASSIFICATION

To account for recent trends in science, research topics and current subjects of study, the Fonds québécois de la recherche sur la nature et les technologies, the Fonds québécois de la recherche sur la société et la culture, the Fonds de la recherche en santé du Québec and the ministère du Développement économique, de l'Innovation et de l'Exportation worked together to develop a new research classification system. To follow up on the initial implementation proceedings they led, the three Quebec research funds are currently engaged in a series of reviews and improvements based on the observations made by researchers. As a result, the new classification should be adopted by many research funding agencies across Canada.
