SELECTION CRITERIA

It is important to answer the questions as precisely as possible giving examples when possible. Obviously, the jury can judge you only on what is described in the application form. It is thus necessary to avoid generic or vague answers.

University-Company partnership

Show how the project, carried out under the Industrial Innovation Scholarship, initiated or reinforced university-company R&D partnerships. (max. of 2,500 characters in length)

Was there an existing history of university collaborations before the Industrial Innovation Scholarship, by way of internships or R&D contracts?

Did the Industrial Innovation Scholarship help in achieving goals or making progress in terms of university-company partnerships?

Integration

Show how the project, carried out under the Industrial Innovation Scholarship, enabled the student-researcher to integrate the company. (max. of 2,500 characters in length)

Show how the student-researcher integrated the teams already in place.

Did the student-researcher receive a job offer?

Innovation Culture

Show how the project, carried out under the Industrial Innovation Scholarship, helped the company to develop or consolidate a culture of innovation. (max. of 2,500 characters in length)

Was the project new or already existing and did it have impact within or beyond the company's project teams?

What was the project's contribution to the company's portfolio of projects?

Project Impact

Show how the project, carried out under the Industrial Innovation Scholarship, met the company's needs in terms of research and innovation. (max. of 2,000 characters in length)

What are the outcomes of the project in terms of innovation for the company?

Did (or will) the project allows the company to access new markets, develop and offer new products or solve recurring problems, etc.
